Things quickly turn sour and it becomes a fight for your life in the wilderness. In this action-packed first-person shooter, you'll be placed in every conceivable scenario, such as fending off hungry bears with a shovel to run alone to a helicopter and escape. The game emphasizes exploration, giving you an experience where you can walk, drive and fly everywhere with the next challenge that always awaits around the corner. You'll sneak the ferns in over a hill and spy on a hostile neighborhood, parachute off a cliff while firing your machine gun, then land in a boat and travel through wetlands as you rescue hostages in a nearby warehouse. Far Cry 5 even has a skill progression system that gives you even more ways to take control of your environment. With an open world constantly evolving, Forza Horizon 4 is no ordinary racing game. Travel the world and take assassin contracts from Paris to Bangkok Hitman: The Complete First Season. To get your target out, you need to explore vibrant atmospheres full of people and blend into your surroundings. In Hitman, there are multiple ways and approaches to Job Done: Do you push the rock star with a shady past of a building making it look like an accident? Or are your techniques more subtle? Either way, your open goals will place you in beautiful scenic locations. Along the way, you'll interact with a variety of characters and choose to knock them out and take their clothes with you to blend in or just have a casual conversation. Unconventional and self-discovered methods are worth while, and every playthrough will always find you something new along the way. In The Long Dark, you'll plunge the country into the cold Canadian wilderness and embark on a harrowing open-world adventure to survive as long as possible. The survival simulator is good for everything: calorie intake, injuries, hunger, thirst, fatigue, wildlife attacks, and all the other environmental factors that can kill you. The Long Dark is a beautiful, minimalist first-person game that puts every aspect of survival in your own hands. Collect wood to build a campfire and keep it going to cook everything you hunt, boil melted snow for drinking water, keep your clothes dry and more. Exploration is key, as you search caves and ancient cities to collect resources and avoid packs of wolves. The Long Dark has both a Survival mode with multiple difficulty settings and an episodic Story mode that offers 11 hours of engaging gameplay. Every turn in Dark Souls Remastered is met with a menacing enemy or daunting obstacle. Choose the knight if you want to charge in battle or Pyromancer if you want to throw fireballs from a distance; you also try one of the other eight classes. You'll traverse deserted dungeons and poisonous swamps, clanging swords with the undead and climb to the top of towering castle walls to take on a giant Taurus demon. Exploration is encouraged and you'll discover many secrets and hidden paths that will give you the chance to find treasures, acquire new gear, learn new spells, and upgrade your skills to prepare you for what awaits you. Best Xbox One Party Games Windows Central 2020 Although many gamers tend to prefer to play solo, it can also be a lot of fun to get a group of people together, in your living room or online, to play some games as a party. Fortunately, the Xbox One console is home to numerous great party games. Here a list of what we think are some of the best. Source: Microsoft Halo: The Master Chief Collection (MCC) collects Halo: Combat Evolved, Halo 2, Halo 3 and Halo 4 in one cohesive package, and for \$10 you can also add Halo: Reach. You and and friends can team up with Xbox Live to roam the matchmaking servers or play custom multiplayer matches themselves. The MCC also lets you play all four campaigns and local multiplayer in split-screen mode for two players, making it a great choice if you have a buddy left. \$30 at Amazon If you like to dance with your friends, Just Dance 2020 is right down your street. Using your smartphone, you can let the game track your moves and track the score of how well you mimic the dance moves on the screen as you groove to today's hit music. You and some of your friends can then compete against each other to get the highest score. \$40 at Microsoft Minecraft is fantastic, but when working with others, it gets even better. Up to four people can play on a single television, and when this happens, the possibilities of sandbox creation are endless. You also buy special Realms, which are always accessible to you and your friends, no matter who is online, and there is even cross-play with the Nintendo Switch. \$20 at Microsoft Monopoly PLUS is the latest virtual iteration of the legendary board game, and the first with an animated city in the middle of the board. You play with up to five other friends locally or online, making it a great option if you have lots of people to entertain. In the end, this is the classic you know and love. \$15 at Microsoft In this strategy game you and three other players work closely together in a grid-based kitchen to prepare, plate, and serve different meals to customers. It gets surprisingly difficult later in the game, so if you and some friends are in for a teamwork challenge, then Overcooked! 2 is perfect for you. \$25 at Microsoft Rayman Legends is a frenetic and chaotic platformer where you and three friends team up to fight nightmare monsters in different action-packed levels. If you want something on the crazy side, then this is a must-own. \$20 at Microsoft In this fighting game, you and three other players can battle it out locally or via Xbox Live. Everyone controls a unique creature that uses one of four elements (water, fire, air and earth) to attack enemies, and learning each character is a lot of fun. \$15 at Microsoft The latest in the Jackbox Party Jack series includes five brand new weird, crazy and fun minigames available for up to eight players to play in local multiplayer. If you're not sure what you want to play with your group, this is a great choice. \$30 at Microsoft Castle Crashers is a charming and engaging hack-and-slash adventure where you and three friends take on different types of evil enemies while leveling and unlocking new types of skills to use in battle. It was remastered for Xbox One, giving the game updated visuals. \$15 on Microsoft Party games are a the best ways to keep meetings active and fun. When you are looking to entertain a crowd, these games are sure to please. Every game on this list is a ton of fun, but my personal personal is Halo: The MCC simply because I'm a giant Halo fan. Board game fans will enjoy Monopoly PLUS, and people who come from an MMO background will get a kick out of Full Metal Furies. We can earn a commission for purchases through our links. Learn more.
